

SESAME

**CONNECTING PEOPLE TO
SERVICES THEY NEED**

There are over **1 billion people with disabilities in the world.**

Over 80% of which live in developing countries.

**People with disabilities have a
diverse set of needs.**

**From the most basic level of
communication and navigating
the world...**

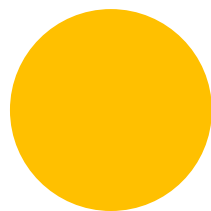

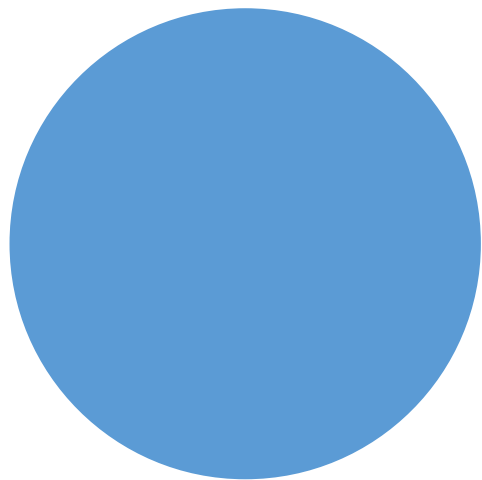

...to employment, sense of belonging to a community, healthcare and various other things.

It is often **difficult for people with disabilities to access the information and services they need to thrive economically, socially and participate fully in society.**

Sesame connects people
with disabilities to a diverse
range of services
personalized to their needs
